

Some feedback from our happy customers!

*"[It is] with great reluctance that I return your darling motorcycle. And very many thanks.
Have had a super week with old friends and rellys highlighted by most enjoyable motorbike riding. [Australia] is a very big chunk of land!
Had no mishaps or bike problems; she just awaits your checkover.
Hopefully I shall do the trip again so will call you then, and I will automatically pass your name onto anyone else who is interested."*

*"Great ride mate, [the bike] drove great! Might have to consider a smaller lighter bike!
I made the circular trip...into the mountains.
If you don't mind, I'll recommend you in the article [for an overseas motorcycle publication]. I will certainly send you a copy when it is published."*

- Stephen, Canada, Suzuki GS500 deep into the Blue Mountains

*"Thanks for the course today. I learnt alot about the basics. The most important thing I learnt thought, was that it's not impossible for me to understand this stuff.
There are definitely still some things I want to feel more comfortable with, so you'll probably hear from me again."*

- Didi, Sydney, after taking part in our "basics of motorcycle maintenance" course
